

Prospectus Approval Form

To the student:

Attach a prospectus of 3-5 double-spaced pages that outlines your project and briefly explains its relevance to the field. Bring this form with the prospectus attached to your thesis director for approval. After securing the approval of your thesis director, bring the form and prospectus to your second reader, and then to the Office of Undergraduate Research, room 211 in The Honors College. An Honors reader will be assigned to serve on your committee. (You should check with the Honors College office to get the name and contact information for the Honors representative on your thesis committee.) This form and your prospectus should be submitted by the end of the semester prior to your Senior Honors Thesis coursework.

Today's Date: _____ Expected Graduation: _____

Name: _____ SSN: _____
last first
